our Fair.

The Greenfield brass band got the praise of furnishing the best music for the Fair for many years past.

Our public schools closed on Tuesday to give the scholars and teachers an opportunity to attend the Fair.

Mr. David Binder and wife, of Mt. Sterling, Ohio, spent Fair week here visiting his parents, Mr. and Mrs. F. Binder.

The dance given at Bell's Hall two nights during the Fair, was largely attended, and we believe kept up until morning. But for the facts ask Carl Utman.

A fire broke out in the back roof of Mrs. A. G. Elder's residence last Monday about noon, but was extinguished by the neighbors before much damage was done. Caused by a defective flue.

The Fair brought out a great many candidates. Of course none of them were repairing their political fences, but were just out to see their old friends and enjoy a day on the grounds like other people.

Quite a number of cases of diphtheria were reported from the country last week. Coley Ware, a lad about fourteen years of age, living near Harper's Station, in Ross county, died with that disease on last Monday afternoon, after three days' sickness. The funeral took place on last Tuesday.

Mr. Shade is a fine performer on the horn and equality as good on the flute, and better than all, a first-class gentleman. The band extends thanks to Mr. Shade for his valuable services. Carl Utman accompanied Mr. Shade, but he is not much of a musician. What he lacks in this line, is made up in his good looks.

THE PAIR.

Our Fair opened on last Wednesday with very promising prespects, and with as fine weather as could have been wished for. It was dusty and somewhat disagreeable in that respect, but the dust did not keep the people away nor in the least discourage the inflow of stock for exhibition. Everything looked booming, and the Fair Board looked pleased at the fine prospect shead. Wednesday closed with a bright setting sun, and bid fair for a fine day on Thursday. But alsa for bright prospects. About four o'clock Thursday morning a heavy rain, and it continued to rain up to noon, making a gloomy prospect for any kind of a display out of doors. The clouds thinned and parted about noon, and the sun appeared again, which inspired new hope in all concerned. The Board held a call meeting on the Grounds Thursday, to determine whether or not to hold the Fair over Saturday, but as the weather cleared up and the prospect seemed good for a bright day on Friday, they decided to go on and close up on Friday, they decided to go on and close up on Friday, they decided to go on and close up on Friday. We walked over the grounds and took a hurried view of all there, and will say Floral Hall was about as full of fine articles as we ever saw it, and the displays of all kinds were very attractive, plainly showing that our people went in to make the Fair a success as far as their contribution was concerned. The exhibition of flowers and fine plants was great, and if we are capable of judging, far exceeding the displays of former years. The show of horses, fine cattle, hogs, sheep, and poultry, was very good. Among the disp and the story of the poultry, was very good. Among the disp and the fine acttle, Mr. T.
